WHO WE ARE

Cement Industries Company (Cementix) has had a dynamic presence in the Kingdom of Saudi Arabia since 2007 as a subsidiary company for **Qassim Cement Factory**.

Since 2015 (Cementix) become one of the Investment partners of Saudi Industries Company www.tatweerco.com

A leading Ready-mix Concrete producer and cement products, we remain a key partner to your success - focused on providing concrete products that comply with the highest International Standard.

Years of valuable experience and knowledge of Saudi Market requirements position us to contribute to the development of the Ready-Mixed Concrete Industry.

OUR VISION

To be a pioneering leader in the modern manufacture of Ready-Mix Concrete and Cement Products. Reaching unparalleled levels of product quality and maximum service efficiency through the successful application of the latest technologies.

OUR MISSION

Manufacture and delivery of premium quality cement products – on time, at the established location, and at reasonable prices.

OUR GOALS

- ❖ To represent the customer's first choice.
- ❖ Expand our reach to the key cities whilst accomplishing strategic projects in the Kingdom of Saudi Arabia with the most outstanding level of quality service.
- ❖ To add value to customers by meeting their highest needs and requirements.

OUR VALUES

- **Customer-centric:** We put our customers first; providing the products that comply with all their demands; delivering on-time and at the place specified.
- **Supplier Partnership:** Suppliers are key pillars of our business. We have developed lasting partnerships and trusts over the years ensuring a more streamlined, effective supply chain.
- **Sustainability:** Preserving the environment is a vital part of our commitment and social responsibility. We work together to protect the planet, employing the most efficient methods for success.
- **Valuing our People:** Employees are our most important asset. We are partners in achieving growth and success for the business.

CENTRAL MIXING PLANTS FOR READY-MIXED CONCRETE PRODUCTION

Cementix has a proven track record of utilizing the most modern technologies in operation, marking its excellence as a leader in the industry. Well-equipped with the latest machinery and equipment, we stand one step ahead of the competition. Anticipating trends and keeping abreast of the most recent developments in the Ready-Mix Concrete sector is part of our commitment to our valuable clients.

The latest technology is also found in our wet central mixing plants, equipped with smart operating systems and programs. This is to achieve the highest levels of consistency and stability for all technical specifications of the required concrete mixtures.

OUR CAPABILITY

- The production capacity of the Cementix plant in Qassim is 360 cubic meters/hour of wet concrete. A vast fleet of modern equipment is available, in addition to the company's readiness to install mobile central mixing stations within the region's projects.
- The production capacity of the Cementix plant in Hail is 240 cubic meters/hour. It is considered as one of the first companies to supply wet concrete in the Hail region.
- Providing strong financial resources from the mother company.
- Ability to provide reliable and high production capacity.
- Having sufficient quantities of essential raw materials.

COMPANY FACILITY		
BATCHING PLANT	TYPE	ORIGIN
7	BHS	GERMANY

Also we expand our business during 2020 year for an additional two factories.

LABORATORY

The company maintains a modern laboratory equipped with the latest equipment and tools – all compliant to international quality standards. This will ensure that all raw materials pass quality control testing in each production stage inside the laboratory. Additionally, during the pouring of cement at specific sites, we use calibrated equipment and tools which meet quality and safety demands.

RAW MATERIALS

We put a premium on self-reliance in procuring the required raw materials. Transportation services are equally important and one of the key elements in business success and growth.

Based on this concept, Cementix endeavors to achieve self-sufficiency by better planning of raw materials supply through the following:

- High-quality aggregates.
- Washed aggregates for higher construction quality.
- Chemical additives for concrete from large chemical production companies.
- Ensure continuity of supply of cement to our plants through Qassim Cement Factory.

CEMENTIX

PREPARATIONS

- ❖ Immediate readiness to enlarge the fleet size in any of our factories based on market requirements.
- ❖ The capability to support projects by possessing extra equipment during emergency cases.

MAINTENANCE

- Highly experienced and qualified Maintenance Team.
- Availability of fully integrated central workshops.
- Mobile workshop for emergency cases.

SAFETY & ENVIRONMENT

- While putting importance to the highest standards of performance, product and equipment quality, Cementix is equally committed to workplace safety and the preservation of the environment.
- We believe in maintaining the ecological balance through sustainable environmental projects. Preserving nature for subsequent generations to enjoy remains our most prized endeavor.

To deliver against the above, we are:

- Committed to safety measures and occupational health in every step we take.
- Implementing procedures compliant to safety and environment regulations.
